

Industrial discharge lighting fixtures Промышленные газоразрядные светильники

Application: indoor and outdoor areas, e.g. halls, stores, workshops, sport facilities, petrol stations, etc.

Body: metal sheet painted by a special industrial technology, 1 mm thick.

Cover: hardened glass resistant to high temperatures (up to 200 °C).

Reflector: high quality stainless material (polished aluminium sheet with high reflection).

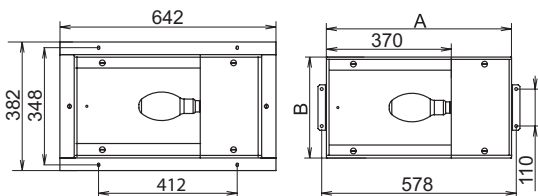

Fastening system: ceiling mounting by means of four bayonet grips and recessed mounting by means of special frame.

Technical parameters of the fixtures are referred in table on page 142.
